Question 1: Attention, passengers. The train from Spencer is arriving on Track 3. The train from Daleville is arriving on Track 4c. The train to Darby, scheduled to leave from Track 2 at 2:05, will be 15 minutes late. The Darby train will leave instead from Track 2b. Thank you for your attention.

Question 2: Hi, Mom, it’s me. Well, we decided to buy a pet for Tom’s fifth birthday. Well, because we think that’s a good age to have a first pet. Of course, as his parents, at first we thought a cat is good, because they’re quiet and don’t need to go out much. But of course, our son wants a dog, like every kid his age. But we think he’s too young to train a dog. So we decided to buy him a hamster. Well, because they don’t need to go for walks like dogs, but you can hug them like cats.

Question 1: Are you going to Switzerland? I was there just last year, on business for my company. It’s a fabulous country! Everything is so beautiful, from the mountains to the cities, and everything is very clean. I had my company’s credit card, so it wasn’t too expensive for me. The only thing was, all the shops, even the museums, were closed on Sunday. I was very lucky to be there during the clearest weather of the summer. I traveled all across the country, and everywhere, people were very helpful and nice.

Question 2: OK, OK, gather around and listen, please. We’re about to go into the castle, so please stay together for the tour through the first six rooms. After that, you are free to walk around the grounds. But please don’t go too far into the castle park, because our bus leaves from right here, this bus stop, in an hour. A very nice gift shop is on the ground floor, where you’ll probably see me! But, listen now, there’s a fast food stand by the exit. I’ll wait for you there at exactly 11 o’clock. Please don’t be late.
